Admin branding

White label: the name, logos, accent, sign-in screen, e-mails and help links - settings of this install, not code

Name and marks

own value

Reset to «REDZ CMS»

Product name
Lagoon Panel

In the admin and in e-mails

Logo · light theme
SVG or PNG, drop a file or choose

Logo · dark theme
SVG or PNG, drop a file or choose

Every interface string names the product through {product} - translators never touch the brand.

Accent color

Own color...

White text on it: 5.6:1, AA in the light and the dark theme. Hover and background shades are derived from it.

Sign-in screen and help

Tagline on the sign-in screen
